

Board of Advisors

Leadership Sponsor Program

The UC Davis Energy and Efficiency Institute (EEI) is a leading university institution advancing energy and energy efficiency solutions. We focus on addressing critical energy challenges and improving energy use through research, education, and engagement. The EEI is home to innovative research centers and programs in buildings, energy storage, transportation, water, agriculture and food production; has nearly 50 affiliated faculty; and hosts an interdisciplinary graduate program in energy systems. We started as the nation's first university-based center on energy efficiency in 2006.

AN INVITATION

The Energy and Efficiency Institute (EEI) seeks strategically minded industry leaders to join our efforts to accelerate the development and commercialization of sustainable, equitable, safe and reliable energy solutions. We define success by actual reductions of waste in the energy system. Leadership Sponsors are critical stakeholders in this success. Sectors are represented by executives from leading industry partners in utilities, technology, impact investment, retail, influential advocacy leaders and energy regulators/policy makers.

CORE OUTCOMES

- | | |
|---------------------------|---|
| Thought Leadership | Convening leaders in industry, government, non-profits and academia to discuss and tackle society's energy-related challenges. |
| Relevant Research | Conducting timely, unbiased, evidence-based research to understand complex energy issues. |
| Real-World Impact | Driving market adoption at scale through demonstrations and partnerships, and by influencing industry and government decision-makers. |
| Future Leaders | Producing graduates who will be tomorrow's energy leaders and experts in government, the private sector and academia. |

BOARD OF ADVISORS

EEL brings together industry leaders and policy makers to help with decision-making and facilitate access to cutting-edge innovation.

Advisors have in common a drive to leverage their positions in the marketplace to scale environmental and financial impacts, including addressing underserved market sectors. Advisors help us shape the projects and policies needed to achieve our shared vision in a competitive and dynamic energy landscape.

“ *Serving as the chair of the EEI Board of Advisors gives me the opportunity to work with a diverse set of key thought leaders and stakeholders that are committed to supporting and investing in the Institute’s meaningful work to accelerate California and the world’s ongoing clean energy transition.*

—Ralph Cavanagh, Co-Director, Natural Resources Defense Council

EEI BOARD OF ADVISORS

Jill Anderson

Vice President
Southern California Edison

Kathleen Hogan

Deputy Assistant Secretary
U.S. Department of Energy

Michael Peevey

Retired
California Public Utilities Commission

Robert Bienenfeld

Assistant Vice President
American Honda

David Jacot

Director
Los Angeles Department of Water and Power

Nancy Pfund

Founder & Managing Partner
DBL Partners

Ralph Cavanagh (Board Chair)

Co-Director
Natural Resources Defense Council

Paul Lau

Chief Grid Strategy & Operations Officer
Sacramento Municipal Utility District

Mark Philpott

Energy Management Manager
Chevron

Scott Crider

Vice President Customer Services
San Diego Gas & Electric

Barry Neal

Executive Vice President
Wells Fargo

Sharon Tomkins

Vice President Customer Solutions & Strategy
SoCalGas

Laurie Giammona

Senior Vice President
Pacific Gas and Electric Company

LEADERSHIP SPONSOR PROGRAM BENEFITS

EEl is committed to ensuring a mutually beneficial partnership and developing personalized engagements and activities that provide value to industry partners.

Member of the Board of Advisors. This influential group plays an important role in advancing energy solutions to meet corporate, state, national and global energy goals.

Visibility. The Institute hosts guest executives to speak at events, seminars, and courses. Invitations are given to Board members and their designees for such exclusive opportunities. In addition, sponsors are recognized on our monitor displays, website, and printed materials.

Market Intelligence Access. Sponsors enjoy early access to the research and technological innovations developed at UC Davis.

Internship and Career Placement. EEl facilitates connections to top UC Davis students who have specialized training in energy and transportation systems.

Prestigious Student Fellowships. Sponsors can allocate a portion of their contribution to a named student fellow. The student will work, under faculty direction, on a project that is of thematic interest to the company. The student will be introduced to the company and present his/her research.

Special Projects. Where there is a strong, shared interest beyond the scope of the Leadership Sponsor or Affiliate Program relationships, the sponsor can establish supplemental projects.

LEADERSHIP SPONSORS PROVIDE A MINIMUM OF \$100,000 THAT SUPPORTS:

Core Activities

Funding supports the development and commercialization of energy-efficient technologies; energy data collection, analysis and visualization; design, development and management of carbon neutral communities; and competitive funding packages to recruit and train top student talent.

Leveraged Outcomes

Funding helps seed or launch much larger research activities and demonstration projects. Investments from sponsors can generate ratios as high as 30:1 for each dollar contributed.

Outreach and Marketing

Funding enables the Institute to conduct outreach that engages policymakers and key energy stakeholders. Sponsors are full participants in these meetings and events.

“PG&E benefits from the institutional knowledge housed in the Institute’s research centers and enacted through real-world collaborative projects, whether it be in lighting, HVAC, water-energy, electric vehicles or energy storage. We leverage their faculty and staff to deploy integrated solutions that benefit our infrastructure and customers, and ultimately California and the rest of the world. At the same time, we are investing in the future energy leaders that we and our partners will continue to hire.

—Laurie Giammona, Senior Vice President, Pacific Gas and Electric Company
