

# UC Davis Energy and Efficiency Institute

Mark Modera

Faculty Director, Energy and Efficiency Institute

# Mission

Accelerating the development and commercialization of energy technologies and solutions to realize a safe, reliable, equitable, and sustainable energy system

# Goals

- » **Empower researchers** to accelerate innovation by providing essential services that support collaboration, integration, and demonstration
- » Solve evolving, critical, energy-related problems with speed and scale through **partnerships** with private- and public-sector stakeholders
- » Spark action through **education** by creating dynamic learning opportunities on campus and beyond
- » Extend the Institute's reach globally by inspiring engagement through **effective communication** with diverse audiences

# Components

# Affiliates Are Critical To Our Success

**UCDAVIS**

California Lighting Technology Center

Sponsors &  
Affiliates

Research  
Centers &  
Programs

**UCDAVIS**

Western Cooling Efficiency Center

**UCDAVIS**

Center for Water-Energy Efficiency

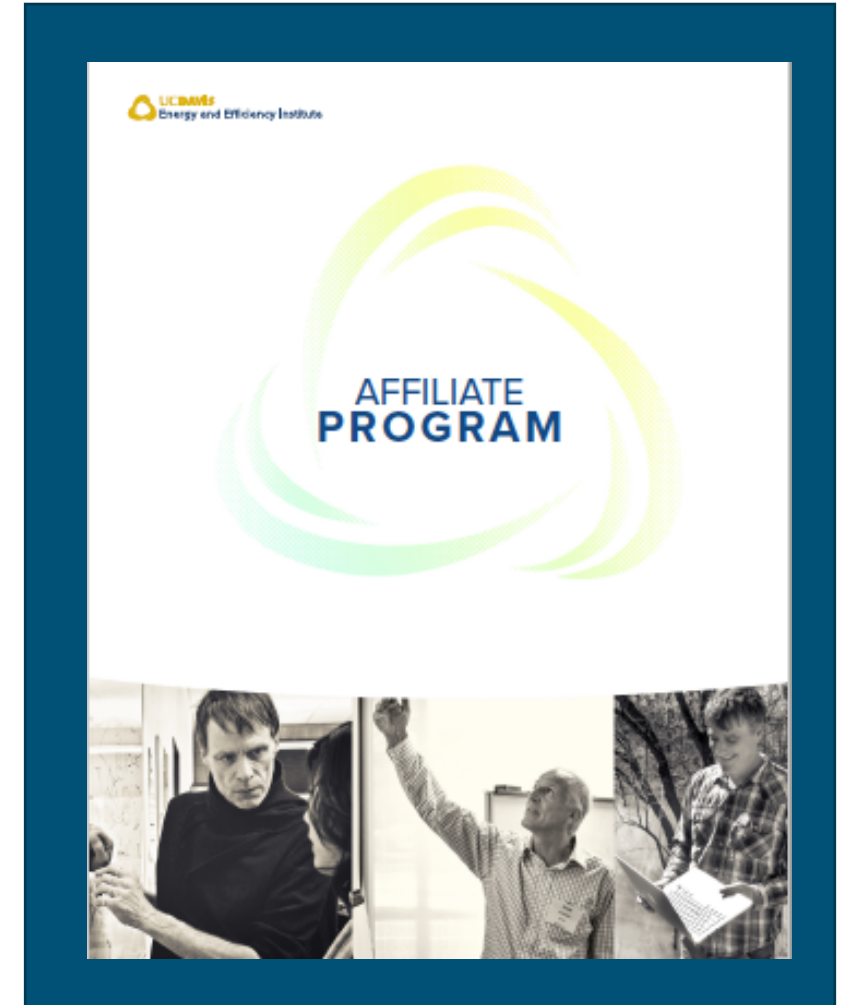

# Affiliates Enable Us To:

- » **Accelerate adoption** of innovative solutions and generate market impact, regardless of idea origination
- » Invest **seed funding** in exploratory research projects to take advantage of emerging opportunities
- » Apply **match funding** to multi-million dollar proposals, improving our competitiveness
- » **Publish and disseminate** our research findings for the largest impact
- » Recruit and retain **top research talent**
- » Assure project delivery by **managing inevitable uncertainties** associated with a research enterprise

# We Appreciate Our Affiliates

- » Welcome to our **second Joint Forum**
  - This year using Whova app and dynamic networking dinner
- » Updated **Affiliate Program**
  - New Affiliate Program Manager
  - Launched a new webinar series: The Energy Exchange
- » **We want your feedback!**
  - Enjoy today and please take our survey!

# Keynote Speaker– Puon Penn

- » Executive Vice President/Head of Technology Capital at Wells Fargo
- » Invests in companies that advance new technologies and business models to solve critical problems facing humanity
- » Started Global CleanTech Group to help companies focused on decreasing their environmental impact
- » Future Aggies in the Family
